TOTAL WATER MANAGEMENT FOR ALL OF YOUR **COMMERCIAL AND INDUSTRIAL** NEEDS

When you choose Flag City Water Systems as your water equipment provider you get more than just equipment! We will walk you through the entire planning stage from the initial design process to the specification, submittals, and engineering development of your water treatment system.

Whether your project is an office building, factory, hospital, college lab or casino we can provide the expertise and equipment for the most demanding application requirements.

Proctor and Gamble Water Supply

What we will do for you...at **NO CHARGE**

- **Assist in the design and sizing** of your water treatment needs.
- **Write an engineering specification.**
- **Provide a CAD drawing** of the water treatment system.
- **Provide a Quick Turn around** on design, specifications, and drawings.
- **Be YOUR specified manufacturer.**

Contact Brad Longberry today to learn how we can assist you with your Commercial and Industrial water treatment application.
